

## Attention Canadian Customers

### Fuel Surcharge Applicable to Delivered Loads (\$ Cdn)

Effective **March 1, 2025**, the Fuel Surcharge will change from the month prior as per the calculation outline below.

- The trigger for a fuel surcharge will be if the average monthly fuel price surpasses \$1.15/L.
- The amount of the fuel surcharge will be established on a monthly basis, based on an average of the prior four-week period.
- **The surcharge applicable is \$0.07/t for every cent over the threshold.**

For example, using the month of February 2022 to illustrate, the average fuel price according to the Freight Carrier Association of Canada is \$1.386/L for the month of February, which means a \$1.65/t fuel surcharge would be invoiced on all volume delivered in March.

$$(1.386 - 1.150 \text{ (threshold)}) = \$0.236 \text{ difference} \qquad 23.6 \text{ cents} \times \$0.07/\text{cent} = \$1.65$$

### Current Fuel Surcharge

Here is the current surcharge and the weekly values, per Freight Carrier Association of Canada, used to calculate the surcharge:

• Week of February 03	1.557
• Week of February 10	1.546
• Week of February 17	1.549
• Week of February 24	1.551
○ <b>Average of the last 4 weeks</b>	<b>1.550</b>

### Calculation of the Fuel Surcharge

$$1.550 - 1.150 = \$0.4000 \text{ difference} \qquad 40.00 \times \$0.07/\text{cent} = \underline{\underline{\$2.80}}$$
